---

## SUMMARY

Diligent, detail-oriented software engineer with a marketing and communications background. Proficient in front-end development. Exposure to the MERN stack. Developer of several web apps. Results focused. Passionate about learning new programming languages and technologies to help further my career.

---

## TECHNICAL SKILLS

HTML | CSS | Bootstrap | JavaScript | jQuery | Handlebars | MySQL | MERN Stack

---

## RECENT PROJECTS

**Eat Da Burger** | [github.com/mjbenefiel/burger](https://github.com/mjbenefiel/burger) | [peaceful-journey-44747.herokuapp.com](https://peaceful-journey-44747.herokuapp.com)

### Sole Developer

*This full-stack web app allows users to enter, pick up, devour and trash their favorite burger.*

- Utilizes MySQL, Node.js, Express, Handlebars and MVC design architecture. Deployed to Heroku.

**Friend Finder** | [github.com/mjbenefiel/FriendFinder](https://github.com/mjbenefiel/FriendFinder) | [fathomless-beyond-86927.herokuapp.com](https://fathomless-beyond-86927.herokuapp.com)

### Sole Developer

*This full-stack web app implements friend matching based on the user's responses to a 10-question survey.*

- Implemented with Node.js and Express on the back end, and Materialize on the front end. Deployed to Heroku.

**Bamazon** | [github.com/mjbenefiel/Bamazon](https://github.com/mjbenefiel/Bamazon)

### Sole Developer

*This app takes in orders from customers and depletes stock from the store's inventory.*

- Utilizes Node.js and MySQL.

---

## TECH EXPERIENCE

**Marketing Manager** – *Bukaty Companies* – Leawood, KS

**2017 - Present**

- Deployed two websites, [lifetransitions.co](http://lifetransitions.co) and [enroll-source.com](http://enroll-source.com). Served as primary liaison between developers and executive management by communicating technical and design details between the two parties.
- Integrated our internal client database with the HubSpot API. Acted as main contact between developers and several company divisions by interpreting the technical details and project requirements.
- Worked to integrate our proprietary technology, EnrollSource, with the Salesforce platform of Blue Cross/Blue Shield of Kansas City. Served as a primary contact to oversee project completion.
- Maintained five corporate websites using Drupal and Webflow. Worked with the web developer to implement continuous improvements to functionality and design.

---

## NON-TECH EXPERIENCE

**Government Affairs Director** – *ABC Heart of America* – Kansas City, MO

**2015 - 2017**

**Operations Manager** – *United Way of the Capital Region* – Harrisburg, PA
